INDEX TO VOLUME XXIII

(Asterisked entries are titles.)

Abortions, sex ratio of, 41
*Accumulation of nitrogen and six minerals in the human fetus during gestation, 61
Anthropometry, of boys, 24
of school children, 160
*Application of statistical methods to the examination of sputum for neoplastic cells, an, 180

BASS, ROBERT E., General System Theory: A New Approach to Unity of Science. 3. Unity of Nature, 323-327
BERTALANFFY, LUDWIG VON, General System Theory: A New Approach to Unity of Science
1. Problems of General System Theory, 302-312
5. Conclusion, 336-345
6. Towards a Physical Theory of Organic Teleology: Feedback and Dynamics, 346-361
Biological system theory, 302, 313, 323, 328, 336, 346
Biometric studies of the growth of children of Rochester, Minnesota: The first year of life, 273
Body length, of infants, trend by age and sex, 273
measures, collection and reporting of data, 93
of infants, 75
of school boys, white, 24
of school children, methodology in study of, 160

Chemical constituents in the human fetus, measures of, by stage of gestation, 61
CHIANG, CHIN LONG, On the Design of Mass Medical Surveys, 242-271
Correlation of physical measurements and age, school children, 160
weight and length of infants, 273
Cross-sectional growth studies, 93
Cybernetics, 346

*Data on the growth of children during the first year after birth, 75
*Design of mass medical surveys, on the, 242
Diagnosis, design of mass medical surveys for, 242
from sputum smears, quantitative criteria for, 180

*Eleven measures of body size on a 1950 sample of 15-year-old white school boys at Eugene, Oregon, 24

Fetal body measures, age, and mineral content, 61
FIX, EVELYN and NEYMAN, JERZY, A Simple Stochastic Model of Recovery, Relapse, Death and Loss of Patients, 205-241
Follow-up study, stochastic model for, 205

*General System Theory: A new approach to unity of science. 1. Problems of General System Theory, 302
* 2. General System Theory and the unity of science, 313
* 3. Unity of nature, 323
* 4. Comment on General System Theory, 328
* 5. Conclusion, 336
* 6. Towards a physical theory of organic teleology: feedback and dynamics, 346
Gestation, duration of, and sex ratio of stillbirths, 41
and mineral content of human fetus, 61
GREENBERG, B. G., and BRYAN, A. HUGHES, Methodology in the Study of Physical Measurements of School Children, 160-179
Growth data, biometry of, 92, 273
of children, 24
of infants, 273
longitudinal data on, 75

HARRIS, EUGENE K., An Application of Statistical Methods to the Examination of Sputum for Neoplastic Cells, 180-204
Height, of schoolboys, white, 24
of schoolchildren, methodology in the study of, 160
HEMPEL, CARL G., General System Theory: A New Approach to Unity of Science. 2. General System Theory and the Unity of Science, 313-322
Histoplasmin skin tests, interpretation of reaction to, 1

Infant growth, biometric study of, 273
longitudinal data on, 75

JONAS, HANS, General System Theory: A New Approach to Unity of Science. 4. Comment on General System Theory, 328-335.

KELLY, HARRIET J., SLOAN, RALPH E., HOFFMAN, WALTER, and SAUNDERS, CLARIBEL, Accumulation of Nitrogen and Six Minerals in the Human Fetus during Gestation, 61-74

Longitudinal growth studies, 93
Losses, in follow-up studies, 205

Malformations, sex ratio of live-born and stillborn, 41
Mathematical model for interpretation of skin tests, 1
of recovery, relapse, death and loss of patients, 205
* statistical studies on the tuberculin and histoplamin skin tests. I. Overlapping of negative and positive reactions, 1
MCKEOWN, THOMAS and LOWE, C. R., The Sex Ratio of Stillbirths Related to Cause and Duration of Gestation: An Investigation of 7066 Stillbirths, 41-60
Measurement(s), anthropometric, of schoolboys, 24
of school children, 160
data, collection and reporting of, 93
of growth of infants, 273
Meredith, Howard V., *see* NEWCOMER, EDWARD O.

*Methodology in the study of physical measurements of school children, 160
Minerals in the human fetus, measures of, by stage of gestation, 61
Model, mathematical, for interpretation of skin tests, 1
stochastic, of recovery, relapse, death and loss of patients, 205
Morbidity studies, follow-up, stochastic model for, 205

Nature, unity of, 323
NEWCOMER, EDWARD O. and MEREDITH, HOWARD V., Eleven Measures of Body Size on a 1950 Sample of 15-Year-Old White Schoolboys at Eugene, Oregon, 24-40
Nitrogen content of the human fetus by stage of gestation, 61
NORVAL, MILDRED, KENNEDY, ROGER L. J., and BERKSON, JOSEPH, Biometric Studies of the Growth of Children of Rochester, Minnesota: The First Year of Life, 273-301

*Problems of General System Theory, 302

Science, unity of, 302, 313, 323, 328, 336, 346
*Sex ratio of stillbirths related to cause and duration of gestation: an investigation of 7066 stillbirths, 41
*Simple stochastic model of recovery, relapse, death and loss of patients, a, 205
Skin tests, interpretation of reaction to, 1
*Some notes on the reporting of growth data, 93
Sputum smears, statistical methodology applied to examination of, 180
Stillbirths, sex ratio of, related to cause and duration of gestation, 41
Surveys, medical, design of, 242

TANNER, J. M., Some Notes on the Reporting of Growth Data, 93-159
TAYLOR, WILLIAM F., Mathematical Statistical Studies on the Tuberculin and Histoplasmin Skin Tests. I. Overlapping of Negative and Positive Reactions, 1-23
Teleology, organic, theory of, 346
THOMPSON, HELEN, Data on the Growth of Children during the First Year after Birth, 75-92
*Towards a physical theory of organic teleology: feedback and dynamics, 346
Tuberculin skin tests, interpretation of reaction to, 1

*Unity of nature, 323

Variability in weight and length of infants, changes in, 273

Weight of infants, trend by age and sex, 273
of school boys, white, 24
of school children, methodology in study of, 160
Weiner, N., 346
Winsor, Charles Paine, portrait of, preceding 75
